

FRANÇOIS XAVIER TALLA TAMO, PMP®

Saskatoon, SK, Canada | xavier.talla@gmail.com | +1 306 381 4375 | Fluent in English & French

Portfolio: xaviertalla.github.io/portfolio/ | GitHub: github.com/xaviertalla | LinkedIn: linkedin.com/in/françois-xavier-talla-40075735

PROFESSIONAL SUMMARY

Results-driven Information Security & Operations Specialist with expertise in GRC frameworks (NIST CSF 2.0, ISO/IEC 27001), ITIL service management, and telecom infrastructure. Proven track record in managing complex terminal and logistics operations, performing vendor risk assessments, and executing incident response protocols. Creator of an interactive cybersecurity portfolio featuring live NIST CSF readiness assessment tools, Vendor Risk Assessment Questionnaires (VRAQ), and incident response SOPs.

CORE COMPETENCIES

- Governance & Risk:** NIST CSF 2.0, ISO/IEC 27001, VRAQ, ITIL
- Technical Security:** Cloud Security (Azure), EDR, Incident Response
- Operations & Network:** Cisco Architecture, Telecom Infrastructure
- Languages:** English (Fluent), French (Fluent)

KEY TECHNICAL PROJECTS & SECURITY ARTIFACTS

Interactive GRC & Cybersecurity Portfolio | xaviertalla.github.io/portfolio/

- Production Deployment:** Engineered and deployed a responsive, live-hosted web portfolio on GitHub Pages utilizing Git workflows and automated CI/CD pipeline actions.
- Governance & Compliance Artifacts:** Authored and integrated high-fidelity GRC documentation, including a standardized Vendor Risk Assessment Questionnaire (VRAQ) and an Incident Response SOP framework for ransomware containment.
- Interactive Assessment Tools:** Developed an interactive NIST Cybersecurity Framework (CSF) readiness estimator to model enterprise security control maturity and compliance gaps.
- Secure Operations:** Implemented secure communication pathways via Formsfree integration and ensured strict access control across published web artifacts.

PROFESSIONAL EXPERIENCE

Terminal Coordinator | Budbee — Feb 2024 – Aug 2026 | Netherlands

- Managed daily terminal logistics operations, ensuring high availability, operational efficiency, and strict adherence to protocol.
- Oversaw system workflows and technical equipment setups to maintain operational continuity.

Telecommunications & Network Operations Specialist | Telecom / Network Sector — Prior Roles | International

- Administered network infrastructure and telecom operations using ITIL service management principles.
- Executed incident management and network monitoring to maintain high system uptime.

EDUCATION & CREDENTIALS

- Post-Graduate Certificate in Cyber Security** – Saskatchewan Polytechnic (Aug 2026 – Present | Saskatoon, SK)
- Master of Business Administration (MBA)** – Completed
- Bachelor's Degree in Electronic and Electrical Engineering** – Completed
- Project Management Professional (PMP®)** – Certification
